

# Caterpillar Homework Menu – Spring

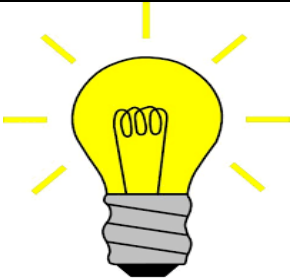

## Project: Creation

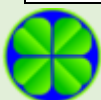

Your child will have a homework book with their log in details for Times *Table Rock Stars* and *Seesaw*. Please keep the homework book in your child's bag as we will be sticking in weekly spellings etc. Project activities can be completed in lots of different ways e.g. taking photos, writing notes, drawing, writing, videos etc. These can also be uploaded to Seesaw. Get creative!

The **green boxes** are activities that need to be completed **weekly**.

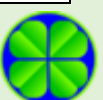

The other boxes are homework activities linked to our project 'Creation' that you can choose from. You **do not** have to complete everything! At the end of each term we will have a class exhibition for the children to celebrate the work they have been completing at home (End of March 2024). Details will be sent nearer the time.

Any questions, please contact Miss Braddock or Ms McLaughlin.

<h3>Reading</h3> <p>Your child will have their reading book as well as their chosen reading for pleasure book.</p> 	<h3>Number Kit</h3> <p>Your child will have a target to practise at home. Once there is a signature from home then we will test that target on Wednesdays.</p> 
<h3>Spellings</h3> <p>These will be stuck into homework books every Friday and tested the following week.</p> 	<h3>Times Tables Rock Stars</h3> <p>Log in details in homework books. The 'Garage' game is a good place to start! Check the weekly bulletin for certificates!</p> 
<h3>Science - Electricity</h3> <p>Find out who invented electricity and create a fact file.</p> <p>Complete a house survey of electrical items in your home (make sure you have permission from a grown-up). Can you identify which are mains or battery supply?</p> 	
<h3>RE / PSHE 40 Acts (see double sided sheet)</h3> <p>The 40 days that lead up to Easter are known as Lent. During Lent, Christians often try to give something up (such as chocolate!) to show commitment and help them focus on their faith.</p> <p>The 40 Acts project gave people a way of celebrating Lent differently: by focusing on little acts of generosity and putting others first. Whether you have a religious belief or not, you might like to try some of these challenges to show kindness to others.</p> 	

*'Living Life to the Full'*

## Art – Sun and Moon

Our new text has started with us exploring an illustration of the sun and the moon.

Can you create your own piece of art around this theme?  
Can you find pieces of art with this theme e.g. Van Gogh's 'Starry Night'?

## Writing – Origin stories

Can you create your own origin story?

You may want to read a few origin/creation myths first to give you some ideas e.g. 'Just So' stories by Rudyard Kipling 'How the Camel got his Hump' and 'How the Leopard got his spots'.

Think of your own title and get creative! e.g. How the Rainbow got its colours etc.

## Computing

### Scratch Projects

If you have access to the internet, use the Scratch website and choose which project you would like to try using your coding skills! Maybe you could make a chase game, animate your name, or create a story! <https://scratch.mit.edu/projects/editor/?tutorial=all>

## History - Anglo Saxons

We know what Saxons houses may have looked like from excavations of Anglo Saxon villages, such as the one at West Stow in the east of England.

Investigate Anglo-Saxon houses and create your own model.

## Geography – Rivers

Fact find about a famous river – record your findings on a PowerPoint, make your own book or design a poster with key facts!

Find out about a local river to you. Can you find it on a OS map or on Google maps. Can you find the its **source** (where it starts)?

## PE - Cosmic Kids Yoga – YouTube

There are many 15/20-minute yoga sessions to choose from. Have a go at the ones below! Or create your own yoga routine!
