SKYLARKS

AUTUMN HOMEWORK MENU

ENGLISH

Our book, The Miraculous Journey of Edward Tulane, tells the story of when a beloved toy got lost.
Write a story about the adventures one of your belongings, such as a teddy, might have if they were separated from you.

ART/ DT

Our Art and DT topics are based on designs around food.
Could you make and decorate a cake or biscuits along a certain theme? Perhaps autumn, Halloween or Fireworks night?

HISTORY

Create a leaflet for 'How to survive the Stone, Bronze or Iron Age'.
Imagine you have been transported back to the Stone Age and need a guide to help you survive, what would the guide say? You can present this how you would like, perhaps a paper based leaflet or a powerpoint guide.

GEOGRAPHY

Have a look in your fridge or cupbaard and make a list of foods and where they came from.
Use the food miles tracker https://www.foodmiles.com/ to see which is most local and which has travelled furthest.

SCIENCE- Y4

Find a rock! Test how hard your rock is by using different materials (eg cardboard/ plastic/ nail/ fork) to see if they can leave a scratch mark.
You might like to create a little rock collection (apologies to adults!) and use them to scratch each other, to see which is the hardest in your collection.

SCIENCE- Y5

Keep a moon diary. Each night sketch the shape of the moon and see how it alters over the month.
Can you name the phases of the moon?
