Appendices

- a) Supporting Attendance of Pupils with Additional Health Needs During the Coronavirus (COVID-19) Pandemic

Statement of intent

The Tas Valley Church Schools Federation aims to support the LA and ensure that all pupils who are unable to attend school due to medical needs, and who would not receive suitable education without such provision, continue to have access to as much education as their medical condition allows, to enable them to reach their full potential.

Due to the nature of their health needs, some pupils may be admitted to hospital or placed in alternative forms of education provision. We recognise that, whenever possible, pupils should receive their education within their school and the aim of the provision will be to reintegrate pupils back into school as soon as they are well enough.

We understand that we have a continuing role in a pupil's education whilst they are not attending the school and will work with the LA, healthcare partners and families to ensure that all pupils with medical needs receive the right level of support to enable them to maintain links with their education.

1. Legal framework

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- Education Act 1996
- Equality Act 2010
- The UK GDPR
- Data Protection Act 2018
- DfE (2013) 'Ensuring a good education for children who cannot attend school because of health needs'
- DfE (2015) 'Supporting pupils at school with medical conditions'

This policy operates in conjunction with the following school policies:

- Attendance Policy
- Child Protection and Safeguarding Policy
- Children Missing Education Policy
- Data Protection Policy
- Records Management Policy
- Special Educational Needs and Disabilities (SEND) Policy
- Supporting Pupils with Medical Conditions Policy

2. LA duties

The LA must arrange suitable full-time education for children of compulsory school age who, because of illness, would not receive suitable education without such provision. The school has a duty to support the LA in doing so.

The LA should:

- Provide such education as soon as it is clear that a pupil will be away from school for 15 days or more, whether consecutively or cumulatively. They should liaise with the appropriate medical professionals to ensure minimal delay in arranging appropriate provision for the pupil.
- Ensure the education pupils receive is of good quality, allows them to take appropriate qualifications, prevents them from falling behind their peers in school, and allows them to reintegrate successfully back into school as soon as possible.
- Address the needs of individual pupils in arranging provision.
- Have a named officer responsible for the education of pupils with additional health needs and ensure parents know who this is.
- Have a written, publicly accessible policy statement on their arrangements to comply with their legal duty towards children with additional health needs.
- Review the provision offered regularly to ensure that it continues to be appropriate for each pupil and that it provides suitable education.
- Give clear policies on the provision of education for children and young people under and over compulsory school age.

The LA should not:

- Have processes or policies in place which prevent a child from getting the right type of provision and a good education.
- Withhold or reduce the provision, or type of provision, for a child because of how much it will cost.
- Have policies based upon the percentage of time a pupil is able to attend school rather than whether the pupil is receiving a suitable education during that attendance.
- Have lists of health conditions which dictate whether or not they will arrange education for children or inflexible policies which result in children going without suitable full-time education (or as much education as their health condition allows them to participate in).

3. Definitions

Children who are unable to attend school as a result of their medical needs may include those with:

- Physical health issues.
- Physical injuries.
- Mental health problems, including anxiety issues.
- Emotional difficulties or school refusal.
- Progressive conditions.
- Terminal illnesses.
- Chronic illnesses.

Children who are unable to attend mainstream education for health reasons may attend any of the following:

- **Hospital school:** a special school within a hospital setting where education is provided to give continuity whilst the child is receiving treatment.
- **Home tuition:** many LAs have home tuition services that act as a communication channel between schools and pupils on occasions where pupils are too ill to attend school and are receiving specialist medical treatment.
- **Medical PRUs:** these are LA establishments that provide education for children unable to attend their registered school due to their medical needs.

4. Roles and responsibilities

The governing board is responsible for:

- Ensuring arrangements for pupils who cannot attend school as a result of their medical needs are in place and are effectively implemented.
- Ensuring the termly review of the arrangements made for pupils who cannot attend school due to their medical needs.
- Ensuring the roles and responsibilities of those involved in the arrangements to support the needs of pupils are clear and understood by all.
- Ensuring robust systems are in place for dealing with health emergencies and critical incidents, for both on- and off-site activities.

- Ensuring staff with responsibility for supporting pupils with additional health needs are appropriately trained.
- Approving and reviewing this policy every two years or when new guidance is published.

The headteacher is responsible for:

- Working with the governing board to ensure compliance with the relevant statutory duties when supporting pupils with additional health needs.
- Working collaboratively with parents and other professionals to develop arrangements to meet the best interests of pupils.
- Ensuring the arrangements put in place to meet pupils' health needs are fully understood by all those involved and acted upon.
- Appointing a named member of staff who is responsible for pupils with additional health needs and liaises with parents, pupils, the LA, key workers and others involved in the pupil's care.
- Ensuring the support put in place focusses on and meets the needs of individual pupils.
- Arranging appropriate training for staff with responsibility for supporting pupils with additional health needs.
- Providing teachers who support pupils with additional health needs with suitable information relating to a pupil's health condition and the possible effect the condition and/or medication taken has on the pupil.
- Providing reports to the governing board on the effectiveness of the arrangements in place to meet the health needs of pupils, when such arrangements are in place.
- Notifying the LA when a pupil is likely to be away from the school for a significant period of time due to their health needs.

The deputy headteacher/ assistant headteacher is responsible for:

- Dealing with pupils who are unable to attend school because of their health needs.
- Actively monitoring pupil progress and reintegration into school.
- Supplying pupils' education providers with information about pupils' capabilities, progress and outcomes.
- Liaising with the headteacher, education providers and parents to determine pupils' programmes of study whilst they are absent from school.
- Keeping pupils informed about school events and encouraging communication with their peers.
- Providing a link between pupils and their parents, and the LA.

Teachers and support staff are responsible for:

- Understanding confidentiality in respect of pupils' health needs.
- Designing lessons and activities in a way that allows those with additional health needs to participate fully and ensuring pupils are not excluded from activities that they wish to take part in without a clear evidence-based reason.
- Understanding their role in supporting pupils with additional health needs and ensuring they attend the required training.

- Ensuring they are aware of the needs of their pupils through the appropriate and lawful sharing of individual pupils' health needs.
- Ensuring they are aware of the signs, symptoms and triggers of common life-threatening medical conditions and know what to do in an emergency.
- Keeping parents informed of how their child's health needs are affecting them whilst in school.

Parents are expected to:

- Ensure the regular and punctual attendance of their child at the school where possible.
- Work in partnership with the school to ensure the best possible outcomes for their child.
Notify the school of the reason for any of their child's absences without delay.
- Provide the school with sufficient and up-to-date information about their child's medical needs.
- Attend meetings to discuss how support for their child should be planned.

5. Managing absence

Parents are advised to contact the school on the first day their child is unable to attend due to illness.

Absences due to illness will be authorised unless the school has genuine cause for concern about the authenticity of the illness.

For most children, absences for health needs will be of short duration, whilst they recover from a minor illness. It is not usually necessary or appropriate for the school to provide work for completion during these absences.

When appropriate, the school will provide support to pupils who are absent from school because of illness for a period of less than 15 school days by liaising with the pupil's parents to arrange schoolwork, as soon as the pupil is able to cope with it, or by providing part-time education at school. The school will give due consideration to which aspects of the curriculum are prioritised in consultation with the pupil, their parents and relevant members of staff.

For periods of absence that are expected to last for 15 or more school days, either in one absence or over the course of a school year, the named member of staff with responsibility for pupils with additional health needs will notify the LA, who will take responsibility for the pupil and their education.

Where absences are anticipated or known in advance, the school will liaise with the LA to enable education provision to be provided from the start of the pupil's absence.

For hospital admissions, the appointed named member of staff will liaise with the LA regarding the programme that should be followed while the pupil is in hospital.

The LA will set up a personal education plan (PEP) for the pupil which will allow the school, the LA and the provider of the pupil's education to work together.

The school will monitor pupil attendance and mark registers to ensure it is clear whether a pupil is, or should be, receiving education other than at school.

A pupil unable to attend school because of their health needs will not be removed from the school register without parental consent and certification from the school's medical officer, even if the LA has become responsible for the pupil's education.

6. Support for pupils

Where a pupil has a complex or long-term health issue, the school will discuss the pupil's needs and how these may be best met with the LA, relevant medical professionals, parents and, where appropriate, the pupil.

The LA expects the school to support pupils with additional health needs to attend full-time education wherever possible, or for the school to make reasonable adjustments to pupils' programmes of study where medical evidence supports the need for those adjustments.

The school will make reasonable adjustments under pupils' IHPs, in accordance with the Supporting Pupils with Medical Conditions Policy.

Pupils admitted to hospital will receive education as determined appropriate by the medical professionals and hospital tuition team at the hospital concerned.

During a period of absence, the school will work with the provider of the pupil's education to establish and maintain regular communication and effective outcomes.

Whilst a pupil is away from school, the school will work with the LA to ensure the pupil can successfully remain in touch with their school using the following methods:

- School newsletters
- Emails
- Invitations to school events, if appropriate
- Cards, letters, phone calls or video calls from peers or staff – usually managed by the class teacher

Where appropriate, the school will provide the pupil's education provider with relevant information, curriculum materials and resources.

To help ensure a pupil with additional health needs is able to attend school following an extended period of absence, the following adaptations will be considered:

- A personalised or part-time timetable, drafted in consultation with the named staff member
- Access to additional support in school
- Online access to the curriculum from home
- Movement of lessons to more accessible rooms
- Places to rest at school

7. Reintegration

When a pupil is considered well enough to return to school, the school will develop a tailored reintegration plan in collaboration with the LA.

The school will work with the LA when reintegration into school is anticipated to plan for consistent provision during and after the period of education outside school.

As far as possible, the pupil will be able to access the curriculum and materials that they would have used in school.

If appropriate, the school nurse will be involved in the development of the pupil's reintegration plan and informed of the timeline of the plan by the appointed named member of staff, to ensure they can prepare to offer any appropriate support to the pupil.

The school will consider whether any reasonable adjustments need to be made to provide suitable access to the school and the curriculum for the pupil.

For longer absences, the reintegration plan will be developed near to the pupil's likely date of return, to avoid putting unnecessary pressure on an ill pupil or their parents in the early stages of their absence.

The school is aware that some pupils will need gradual reintegration over a long period of time and will always consult with the pupil, their parents and key staff about concerns, medical issues, timing and the preferred pace of return.

The reintegration plan will include:

- The date for planned reintegration, once known.
- Details of regular meetings to discuss reintegration.
- Details of the named member of staff who has responsibility for the pupil.
- Clearly stated responsibilities and the rights of all those involved.
- Arrangements for social contact, including the involvement of peers and mentors during the transition period.
- A programme of small goals leading up to reintegration.
- Follow-up procedures.

The school will ensure a welcoming environment is developed and encourage pupils and staff to be positive and proactive during the reintegration period.

Following reintegration, the school will support the LA in seeking feedback from the pupil regarding the effectiveness of the process.

8. Information sharing

It is essential that all information about pupils with additional health needs is kept up-to-date.

To protect confidentiality, all information-sharing techniques, e.g. staff noticeboards, will be agreed with the pupil and their parent in advance of being used.

All teachers, TAs, supply and support staff will be provided with access to relevant information, including high-risk health needs, first aiders and emergency procedures, via a noticeboard in the staffroom.

Parents will be made aware of their own rights and responsibilities regarding confidentiality and information sharing. To help achieve this, the school will:

- Ensure this policy and other relevant policies are easily available and accessible.
- Provide the pupil and their parents with a copy of the policy on information sharing.
- Ask parents to sign a consent form which clearly details the organisations and individuals that their child's health information will be shared with and which methods of sharing will be used.
- Consider how friendship groups and peers may be able to assist pupils with additional health needs.

When a pupil is discharged from hospital or is returning from other education provision, the school will ensure the appropriate information is received to allow for a smooth return to the school. The named member of staff will liaise with the hospital or other tuition service as appropriate.

9. Record keeping

In accordance with the Supporting Pupils with Medical Conditions Policy, written records will be kept of all medicines administered to pupils.

Proper record keeping will protect both staff and pupils and provide evidence that agreed procedures have been followed.

All records will be maintained in line with the Records Management Policy.

10. Training

Staff will be trained in a timely manner to assist with a pupil's return to school.

Once a pupil's return date has been confirmed, staff will be provided with relevant training before the pupil's anticipated return.

Healthcare professionals should be involved in identifying and agreeing with the school the type and level of training required.

Training will be sufficient to ensure staff are confident in their ability to support pupils with additional health needs.

Parents of pupils with additional health needs may provide specific advice but will not be the sole trainer of staff.

11. Examinations and assessments

The named member of staff will liaise with the alternative provision provider over planning and examination course requirements where appropriate.

Relevant assessment information will be provided to the alternative provision provider if required.

Awarding bodies may make special arrangements for pupils with permanent or long-term disabilities and learning difficulties, or temporary disabilities and illnesses. Applications for such arrangements will be submitted by the school, or LA if more appropriate, as early as possible.

12. Monitoring and review

This policy will be reviewed by the governing board every two years or when new guidance is published.

Any changes to the policy will be clearly communicated to all members of staff involved in supporting pupils with additional health needs, and to parents and pupils themselves.

The next scheduled review date for this policy is summer term 2023

Supporting Attendance of Pupils with Additional Health Needs During the Coronavirus (COVID-19) Pandemic

Statement of intent

At the Tas Valley Church Schools Federation, we understand that the pandemic is a worrying time for pupils with medical conditions and additional health needs, and we aim to do all that we can to support these pupils and their families to engage in education during this period.

The information in this appendix is under constant review in line with government guidance and will be updated if any new information is released.

1. Legal framework

This policy has due regard to all relevant legislation and statutory guidance, including, but not limited to, the following:

- Coronavirus Act 2020
- DfE (2021) 'Schools coronavirus (COVID-19) operational guidance'
- DfE (2021) 'SEND and specialist settings – additional operational guidance: coronavirus (COVID-19)'

2. Roles and responsibilities

The governing board will:

- Ensure that there are procedures and arrangements in place to minimise the impact of the pandemic on pupils with additional health needs that may limit their ability to attend school.

The headteacher will:

- Ensure that there are effective communication channels in place between the school and pupils with additional health needs, and their parents, during the pandemic.
- Facilitate effective conversation with relevant healthcare professionals and any other relevant services to ensure that pupils remain supported during the pandemic.

3. Managing attendance

As under normal circumstances, the school will be sensitive and understanding in its approach to managing attendance of pupils whose health needs limit their ability to attend school, whether due to temporary illness or injury or a long-term condition.

The school will liaise with the parents of these pupils regarding their expected attendance at school, and will remain cognisant of where these pupils are receiving education, e.g. through remote learning or from the LA, at all times.

The school will record pupil attendance and absence as normal, unless they are absent for reasons related to coronavirus, in which case absences will be recorded using Code 'X'.

The school will conduct an individual risk assessment for pupils with additional health needs to identify and mitigate potential risks to the pupils' safety if they attend school during the pandemic – this risk assessment will assess their vulnerability to infection, as well as whether the school will be able to continue to meet provisions laid out in the pupil's IHP, where relevant, under organisational challenges presented by the pandemic.

The school will work to implement any control measures illuminated within this risk assessment that will help pupils to safely attend school and will maintain regular communication with parents to ensure that concerns surrounding their child's safety are considered.

Where, upon completion of this risk assessment, the school feels it cannot sufficiently mitigate the potential risks to the child at school with regard to coronavirus or cannot guarantee that certain provisions in their IHP that are pivotal to the child's ability to attend school safely can be consistently met, the school will not expect the pupil to attend.

Where a pupil cannot attend school following a risk assessment, the school will work with their parents and the LA to ensure that a plan for the pupil's engagement in education is in place. This will include remote education provided from the day after the child's first day of absence, provided they are well enough and not receiving education elsewhere, e.g. an alternative provision setting or the LA.

4. Support for pupils

The school will recognise that pupils who are absent from school due to their health needs may feel increased levels of isolation during the pandemic due to government restrictions inhibiting their ability to socialise or receive visitors.

The school will, thus, ensure that these pupils are offered pastoral and wellbeing support where appropriate.

The school will liaise with the parents of an absent pupil to determine an appropriate and non-intrusive schedule of contact between the pupil and the school, including with the named member of staff and the pupil's peers.

The school will ensure that parents of absent pupils are aware of the support available to them regarding their mental health, wellbeing and educational needs, and how to access that support during the pandemic.

The school will use all reasonable endeavours to maintain the full provisions outlined in IHPs or other support plans, particularly if these provisions are vital to pupils' ability to attend school and will inform the pupils and their parents in advance if certain provisions cannot be met under the current circumstances.

5. Shielding

Where a pupil with additional health needs is classified as clinically extremely vulnerable (CEV), the school will support the pupil to resume shielding, where advised by a clinician or national health advice. The school will work with the parents of the pupil and the LA, where appropriate, to engage the pupil in remote education.

Where a CEV pupil is advised to attend school, either by a clinician or because shielding recommendations have been paused, the school expects them to do so.

In this case, the school discusses with the pupil, their parents and the LA how the pupil's educational needs will be best met when attending school on site.

The headteacher ensures that they are always aware of whether pupils with additional health needs are expected to be attending school during the pandemic and maintains communication with these pupils and their parents to ensure they accurately record each pupil's attendance.

6. Monitoring and review

The headteacher is responsible for continually monitoring local advice and updating this appendix in line with any changes to government guidance.

Any changes to this appendix will be communicated to the relevant pupils, staff and parents.
